

Justin Bush

Huntersville, NC 28078 | (704) 773 – 6429 | JBush43@yahoo.com | LinkedIn.com/in/Justin-Bush-738b3a201/

Full Stack Software Developer

Appian | SQL Server

Highly skilled and results-driven professional with expertise in low code development, web frameworks, and database management. Possesses a strong foundation in C#, Bootstrap 5, JavaScript, HTML, CSS, and SQL. Successfully utilized these skills to deliver efficient and scalable solutions to increase customer retention and drive business revenue. Bachelor of Science graduate majoring in Mobile App Development with a strong passion for exceeding expectations. Certified as an Appian Analyst and Appian Senior Developer with a demonstrated proficiency in leveraging the Appian low code platform to design and develop user-friendly applications.

PROFESSIONAL EXPERIENCE

Appian and SQL Database Web Developer | SkillStorm – Remote Feb 2022 – May 2023

I developed a comprehensive Medicare rules engine for Ignyte Group Health, enabling the **creation and testing of eligibility rules** in real-time. The project involved various aspects such as **database design** and development using SQL, record-based design, user interfaces, process models, APIs, and integrations.

- Successful contract proposal submitted to the State of Vermont

WordPress Developer | Fit 4 Life: Doctor B. Bush Integrative Therapy Practice – Cornelius, NC Jan 2010 – July 2019

Developed a health and wellness website for Fit 4 Life using WordPress, leveraging the power of various plugins.

Implemented WooCommerce for seamless product sales and shipping functionalities. Designed and **integrated content management features**, enabling clients to access personalized plans tailored to their nutritional needs. Incorporated the MindBody application to facilitate convenient scheduling and appointment purchases.

PHP & SQL Developer | Fit 4 Life

Utilized PHP and MySQL to design and develop custom forms for clients, allowing **efficient collection and storage** of client information in the database. Implemented advanced techniques such as stored procedures, virtual tables, and temporary tables to enhance data management capabilities.

FURTHER WORK EXPERIENCE

Part Time Package Handler / Large Package Safety Personnel | FedEx – Charlotte, NC May 2018 – Feb 2022

Excelled in physically demanding tasks such as loading 80-100 pound products onto trailers for delivery and processing 100-150 packages per minute. Demonstrated **strong organizational skills** by efficiently moving freight and materials between storage areas, production areas, and loading docks while adhering to safety regulations.

Personal Trainer | YMCA – Charlotte, NC

Mar 2014 – Mar 2020

Evaluated clients' fitness levels and health conditions, designing customized exercise programs to suit their individual needs and goals. Provided clear instructions on exercises, monitored clients' progress, and ensured the safe use of gym equipment.

EDUCATION

Bachelor of Science in Computer & Information Science, Major; **Mobile Development**

Aug 2021

ECPI University Online –Virginia Beach, VA

- Summa Cum Laude: 3.97 / 4.00 Final GPA
